GLOBAL EDUCATION PROJECT

Professional Learning Initiative

One World Centre

educating for a just and sustainable world

What is the One World Centre?

The One World Centre implements the **Global Education Project**, a professional learning initiative, for educators in WA.

We offer professional development **workshops** on a range of global and development issues at the centre, in schools and at universities for teachers and pre-service teachers.

Education Officers work with teachers and schools on **programmes and resources**, and to take a **whole school approach** to global education.

The **OWC library** provides a wide range of global education teaching and learning resources suitable for teachers and students.

What's Global Education?

"Enabling young people to participate in a better shared future for all is at the heart of global education.

Global education promotes open-mindedness leading to new thinking about the world and a predisposition to take action for change. Students learn to take responsibility for their actions, respect and value diversity, and see themselves as global citizens who can contribute to a more peaceful, just and sustainable world"
