

Professional Development Programme 2011

**What will the world be like when your students leave school?
How can they participate now in shaping a better shared future for all?**

Global education enables young people to participate in shaping a better shared future for the world. As your **global education resource centre** in WA, the One World Centre supports schools to bring global perspectives to their teaching and learning programmes.

Professional development sessions are **practical and interactive** and will equip you with the skills to encourage and inspire active global citizens, as well as provide a wealth of resources including **engaging classroom activities** and strategies.

For all ages and learning areas, One World Centre workshops are tailored to suit the interests and needs of your students. Workshops you may be interested in include:

Globalise me

Human Rights

Where are we in the World?

Games and Simulations

Teaching about Other Countries

Sustainable Futures

Poverty & the MDGs

Peace and Conflict

NEW in 2011: 'Global Teaching Advocates' ...

Ready to take it further?

Join colleagues from across the state for mentoring, peer support, and financial assistance with a global project.

Apply and take the first step towards becoming a **go-to teacher of global education** in your school.
