

## GLOBAL EDUCATION FOR EARLY CHILDHOOD

Are you an educator who would like to bring rich and diverse learning experiences into an early childhood setting? This One World Centre workshop focuses on ideas, skills and resources that will enable you to assist children in developing knowledgeable and confident self identities (EYLF 1.3) through learning experiences that explore the global dimension of children's connections with and contributions to the world. (EYLF 2)

The workshop will suggest practical ways that you can

- promote a sense of **belonging** and **community** in an early childhood setting; (EYLF 2.1)
- explore similarity and differences in the ways that cultures and identities are recognised and expressed, fostering an **appreciation for diversity and respect for difference**; (EYLF 2.2)
- explore issues of social justice and **fairness** with young children; (EYLF 2.3)
- foster the attitudes and behaviours that support environmental responsibility and **sustainability**. (EYLF 2.4)

You will also have the opportunity to explore the One World Centre's collection of globally focused resources for early childhood.

For enquiries and further information contact Caroline Marsh  
[education@oneworldcentre.org.au](mailto:education@oneworldcentre.org.au) or phone 93719133.
