

ONE WORLD CENTRE

WORKING TOWARDS A JUST AND SUSTAINABLE WORLD

TWO-WAY SCIENCE WORKSHOP AT CREEC: CANNING RIVER ECO EDUCATION CENTRE DR ELAINE LEWIS

Two-Way Science is an Integrated learning approach that connects Aboriginal and Torres Strait Islander knowledges with Western science methodologies. It promotes Indigenous leadership and fosters partnerships between schools and communities.

The Department of Education is conducting a Two-Way Science Pilot Program (2021-2022) and Coolbinia Primary School is one of the participating metropolitan schools. Elaine will share Coolbinia's experience as a Two-Way Science school and illustrate how this approach can work in a metropolitan context.

This workshop links with United Nations Sustainable Development Goals 4 (Quality Education), 13 (Climate Action) & 16 (Human Rights and Justice).
