

ONE WORLD CENTRE

WORKING TOWARDS A JUST AND SUSTAINABLE WORLD

TWO-WAY SCIENCE WORKSHOP SHOWCASING A WHOLE OF SCHOOL APPROACH IN PHYSICAL SCIENCE

Two Way Science supports integrated learning programs connecting Aboriginal and Torres Strait Islander cultural knowledges with Western science and the Western Australian curriculum.

In this workshop an Aboriginal educator and the coordinator of the Two Way Science program at Coolbinia Primary School will jointly showcase classroom examples of Two-Way Science in operation in the Physical Sciences. Attendees will be invited to participate in science elaboration activities with the Aboriginal educator, such as dancing (Year 1) and using fire sticks (Years 3). Join us for an enlightening session that will illustrate a whole school approach to Two-Way Science.

This workshop links with United Nations Sustainable Goals:
